Participant addition for DML

Project Name	TML PLM
Project Number	EDGIN-00056
LoB	EnD
Industry	Automotive
Domain	PLM Systems
Functional	TCUA Work Flow
Tool	Teamcenter Unified
[Document Category - General / Customer Specific / Confidential]	General
Document Type (From the list on left)	Procedures
Author	Mohan Tayade
Author email	mohan.tayade@tatatechnologies.com
Document version	1.0
Keywords	.

Participant:

- ❖ Participants are the actors assigned to the object, who have special assigned role to process the object in workflow.
- ❖ A workflow participant is any user or group who is assigned to process work in a workflow

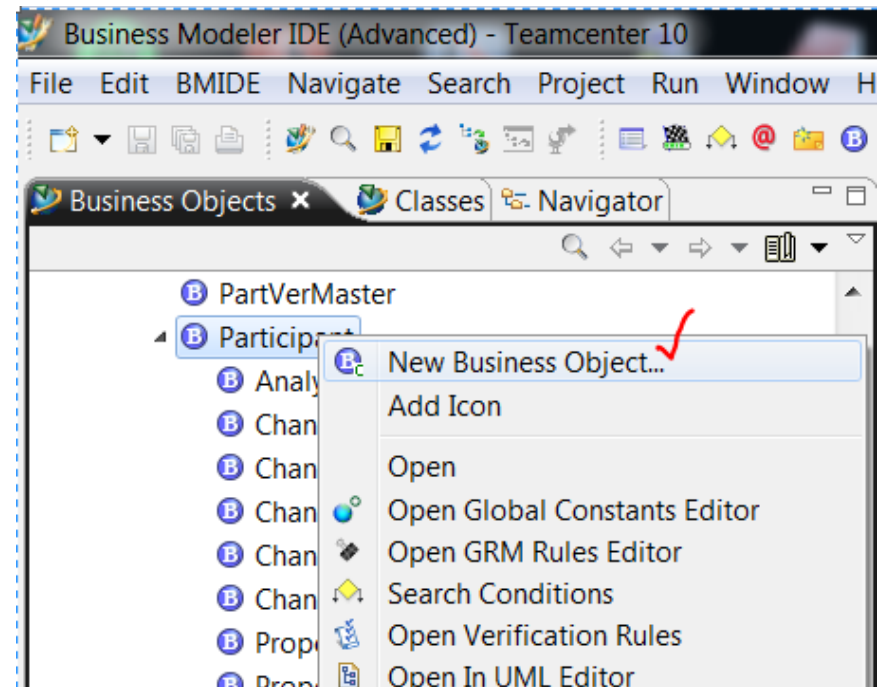

How to add new business object in participant?

- ❖ First need to add new participants in BMIDE in respective project.

- ❖ Process:

1] Go to Business object view.

2] Select Participant, right click and select 'New Business Object.' →

3] Fill the new business object form and click Finish.

New Business Object

Business Object
Create a new Business Object

Project: TRL001

Name: * T5_DMUReviewer

Display Name: * T5_DMUReviewer

Parent: * Participant Browse...

Description: DMU Reviewer

☒ Create Primary Business Object

☐ Is Abstract?

? Finish Cancel

4] New object/Participant get added.

- ▲ **B** Participant
 - B** Analyst
 - B** ChangeImplementationBoard
 - B** ChangeReviewBoard
 - B** ChangeSpecialist1
 - B** ChangeSpecialist2
 - B** ChangeSpecialist3
 - B** ProposedResponsibleParty
 - B** ProposedReviewer
 - B** Requestor
 - B** T5_BOMAnalyst
 - B** T5_CEReviewer
 - B** T5_DMUReviewer
 - B** T5_PeerReviewer

5] To modify participant properties/constant need to double click on respective participant.

Ex: To modify business Object constants, need to select respective constant name and click 'Edit' button. Then we can modify value for it.

6] Once the updation done, save the data model.

7] We have added different Reviewers for DML/Task.

- Ex:
- Analyst
 - BOM Reviewer
 - CE Reviewer
 - Peer Reviewer
 - DMU Reviewer
 - VI reviewer

The screenshot shows the 'Business Object Constant' dialog box in the foreground, which is used to modify business object constants. The dialog box has a title bar with a blue 'B' icon and a 'Modify Business Object Constant' title. It contains fields for 'Constant Name' (ParticipantUsedOnObjectTypes), 'Type' (String), and 'Value' (GnChangeRequestRevision). A red checkmark is visible next to the value field. Below the dialog box, a table lists various business object constants.

Name	Value	Overridden	COTS	Temp
Fnd0ObjectRevIDToAudit			✓	founc
Fnd0OBJIOSupportedType	true		✓	founc
MultiFieldKey			✓	founc
ObjectUnloadable	true		✓	founc
ParticipantAllowMultipleAssignee	true		✓	founc
ParticipantHandlerKeyword	DMU_REVIEWER	✓		trl001
ParticipantUsedOnObjectTypes	GnChangeRequestRevision	✓		trl001
SaveAsInput	T5_DMUReviewerSvAI	✓		trl001

Buttons for 'Edit...' and 'Reset' are visible to the right of the table. The background shows the 'T5_DMUReviewer' window with tabs for 'Main', 'Properties', 'Operations', 'Deep Copy Rules', 'GRM Rules', and 'Operation Descriptor'.

5] 'ParticipantHandlerKeyword' is keyword need to set dynamic participants through handlers in workflows.

Ex: DMU_REVIEWER will be the keyword for dynamic participants for DMU reviewers.

6] 'ParticipantUsedOnObjectTypes' is the business object constant where we need to mentioned object type where we want to assign participant.

Ex: GnChangeRequestRevision is the object where we assign DMU reviewer.

7] Similarly we can create and set participants for business object.
